ORDER:

Amaravathi is a famous pilgrim centre where Lord Siva temple is located on the banks of river Krishna. There will be regular visits by the pilgrims from different parts of the State and Country. It is also a popular Buddhist centre where famous Buddhist monuments are located. This road connects number of villages in four mandals namely Guntur Urban, Guntur Rural, Tadikonda and Amaravathi. It passes through fertile agricultural fields and the agricultural produce is transported to the nearest market yards through this road. The sand quarry is located at the end of the road i.e., Amaravathi in Krishna river and many heavy loaded trucks carrying sand are regularly plying on this road. Traffic Intensity is 10,167 PCUs/day, the carriageway width of the road is 5.50 M. The existing lane from Km 14.000 to 32/0 is unable to cater the needs of the heavy traffic on the road. Hence it is very essential to widen the intermediate lane at least to 10.0 M. it is proposed to take up the widening in two phases and in the first phase it is proposed to take up the widening from Km 14/0 to 20/0 with an amount of Rs.8.10 Crores.

2. He has further stated that the Tadikonda - Rayapudi road is an important MDR connecting two mandals namely Tadikond and Thullur. It passes through rich and fertile agricultural fields. The agricultural produce will be transported to the nearest market yards through this road. Many vehicles carrying sand are plying on this road. Traffic Intensity is 6,710 PCUs/day, the carriageway width of the road is 3.66M. Hence, it is very essential to widen the left over stretch of 2.15 Km from Km.8.850 to 11.000 with an amount of Rs.2.00 Crores.
